INTRODUCTION

AFRALO FY22

The AFRALO FY22 Outreach and Engagement Strategy aims at ensuring that the AFRALO spearheads the ICANN global agenda and mission with the use of regional strategy ([ICANN Africa regional plan 2021 - 2025](#)) as a blueprint for the outreach and engagement. To ensure that the strategy is thoroughly aligned with ICANN global agenda, the AFRALO leadership recognises the critical role the ICANN regional global stakeholder engagement team plays in the region and therefore places a closer working relation with the regional office for a successful implementation of the strategy. The strategy draws some key lessons from the FY21 period in which most of the activities revolved around virtual regional and national activities. The AFRALO leadership also promoted the engagement of the ALS members through the monthly webinar series which were a direct response to the global pandemic that resulted in travel ban and face to face meetings.

APPROACH

The AFRALO will strive through its meetings and engagement with the community to ensure within the region the following key elements;

- Promote the adoption of Domain Name System Security Extensions (DNSSEC) in Africa
- Help reduce the gap in cybersecurity skills in the region
- Improve the stability and resiliency of the Internet in Africa
- Promote Universal Acceptance principles, DNSSEC and cybersecurity skills in the region by way of working with ALSes through the local activities.
- Promoting Africa end-users leadership in ICANN activities
- Encourage the greater participation of AFRALO members through In- reach activities
- Establish mentorship program within AFRALO

MEASURING PROGRESS

To measure the success of the AFRALO FY22 outreach and engagement plan, the AFRALO shall follow through on the key indicators outlined in the strategy.

Key Indicator	Activity	Outcome
Grow the number of AFRALO members by 5%	Work with the Global Stakeholder Engagement team to participate in regional events.	<ul style="list-style-type: none">• Increased number of ALSes• Increased number of affiliated individual members
