

Aris Ignacio's SOI:

I'm honored to accept my nomination for a second term as Vice Chair of APRALO with humility and enthusiasm. Serving in this capacity has been a privilege, and I am eager to continue contributing to our community's mission.

During my current term, I've been dedicated to fostering inclusivity and growth within APRALO. I'm committed to continuing these efforts by focusing on two key priorities:

Firstly, I'm passionate about welcoming new voices into APRALO. The infusion of fresh perspectives is essential for our continued representation of users to ICANN. As Vice Chair, I will prioritize the onboarding of new members, ensuring they feel supported and empowered to contribute meaningfully.

Secondly, I aim to enhance our outreach and engagement efforts across the APAC region. By leveraging the resources of the O&E working group and collaborating closely with our leadership team and members, I believe we can amplify our impact and build stronger connections within our community. It's crucial that we inform and involve stakeholders effectively, and I'm dedicated to ensuring their voices are heard.

I am deeply grateful for the opportunity to continue serving in this role and for your consideration of my candidacy. Together, I am confident we can achieve great things for APRALO and the broader ICANN community.

Thank you for your time and trust!

Happy to serve!

Yours truly,
Aris Ignacio
