

Background & Introduction

The ccNSO provides a platform to nurture consensus, technical cooperation and skill building among ccTLDs and facilitates the development of voluntary best practices for ccTLD managers.

The policy development process (<http://ccnso.icann.org/policy/development>) is managed by the ccNSO Council, which consists of 18 Councillors (15 elected by ccNSO members, three appointed by the ICANN Nominating Committee).

The Councillors are actively involved in determining the work and direction of the ccNSO: they lead and participate in various ccNSO-working groups; they engage the community in topical issues and they develop positions based on community feedback.

The ccNSO Council meets regularly at ICANN's international meetings, and at (monthly) scheduled telephone conferences. All the documents, minutes of the meetings, resolutions and discussions are published on the ccNSO website and on the ccNSO Council wiki space.

In order to further improve the transparency and accountability of the ccNSO Council, in light of the upcoming discussions on the accountability of the ccNSO as part of the process to enhance ICANN's Accountability, we invite you to answer the ccNSO Council Accountability survey by 22 June 2016. Your answers will be most appreciated. Results of the survey will be made available shortly after 22 June 2016 on the ccNSO website.

GENERAL INFORMATION

1. Which region does your ccTLD belong to? Please select one.

- Africa
- Asia-Pacific
- Europe
- Latin-America & Caribbean
- North America

2. What is your relationship to the ccNSO?

- The ccTLD is a member
- The ccTLD is not a ccNSO member

Maybe it could be a Yes or No question.

Is your ccTLD a member of the ccNSO?

3. Your ccTLD is **potentially** a member of one or more Regional Organisations. Select all that apply.

- AfTLD
- APTLD
- CENTR
- LACTLD
- None of the above

Why potentially? Should ccTLDs that are already members of an RO not answer?

Maybe have another Yes or No question: Is your ccTLD a member of an RO?
If YES, which RO is the ccTLD a member of

If NO, which RO would the ccTLD potentially become member of? with the None of the above option.

TRANSPARENCY

Definition: the ccNSO Council is answerable to its stakeholders by being open and visible to them.

4. How do you receive information about the activities of the **ccNSO and** ccNSO Council? Select all that apply.

- Updates by individual Councillors (face-to-face and teleconferences)
- Minutes of ccNSO Council meetings (face-to-face and teleconferences)
- ccNSO Council Correspondence
- Monthly activity updates
- Councillors attendance sheets

How about adding:

individual Councillors email, chat or Social Media (Facebook, Twitter, etc.)?

ccNSO website, mailing list, social media?

ICANN meetings, ROs updates?

To me this are two different questions and would suggest to separate them.

- Information regarding ccNSO Council Elections
- Councillors attendance sheet  *This is one is repeated*
- ccNSO Council wiki
- none *Maybe it would be interesting to ask for "Other, please specify"*

5. Which channels do you use to receive information about the activities of the ccNSO Council? Please select all that apply.

Regarding the options, this question seems more likely to be asking about ccNSO activities in general, than ccNSO Council.

- Mailing list
- ccNSO website *The previous question seems to be asking specifically about ccNSO Council activities.*
- ccNSO Council wiki space
- ICANN meetings
- Updates provided to the regional organisations during their meetings (AFTLD, APTLD, CENTR, LACTLD)
- Social media
- Other, please specify:
- None
