

Ajay Data

Dr. Ajay Data is an award winner techno commercial Founder & CEO of multiple technology companies. He always puts people first, believes in long term relationships with team mates. He do not believe in employee employer relationship, rather co-workers with a vision to achieve common goal. As a CEO of the 1000+ team members of the company, he has been driving initiatives to build a skilled and culturally-diverse global workforce.

His innovation and execution of software products like BharatSync, [XgenPlus](#), Spamjadoo, [DATAMAIL](#) has got users world over and won multiple patents. Making a modest start on April 18th 1999 as Rajasthan's first private Internet Service Provider, the company rapidly expanded its line of businesses in the areas of e-Governance, Software Products, Turnkey IT Solutions and Mobile Technologies. Recently Data Xgen Technologies got global recognition for bringing in first of its kind IDN email supporting email addresses in Hindi, Gujarati, Tamil, Telugu, Marathi, Cyrillic, Thai, Korean, Arabic plus 15 more languages. Dr. Data is Managing Director of Data Group of Industries with an annual business turnover of approx US \$200 Million and sought after speaker and leader by young entrepreneurs for mentoring and guidance. Recently Govt. of Rajasthan also started linguistic email services to every citizen on the innovation and technology built under his leadership and guidance. Along with his wide ranging experience in these organizations, he is also leading the ICANN's Neo Brahmi General Panel for generating LGR's , EAI Coordinator in Universal Acceptance Group, Member of ISPCP Constituency and Expert Panel of RZ-LGR Application.
