

Statement of Interest for Post of ccNSO Liaison to ALAC: Dr Ben Fuller

My involvement with ICANN comes through my membership in the Namibia Network Information Centre. As such I am neither aware of, nor do I foresee any conflict of interest. Lately the Government of Namibia has asked me to be part of a task force to create both a national Internet Governance Forum and a national Internet Society. These activities, should they be successful, have a potential to create a conflict of interest. Should I detect such a potential I will notify the ccNSO accordingly.
