Request for Early Input – DNS Abuse Mitigation PDP1 Charter

7 March 2026

Dear Paul

Thank you for the option to provide early input on the GNSO DNS Abuse Mitigation (DNSAM) Policy Development Process (PDP) sent on 18 February.

At its meetings in December 2025 and January 2026 the ccNSO Council extensively discussed whether to participate in the aforementioned PDP, and if so, under which conditions. The ccNSO Council decided that “[...] the ccNSO does not have a view, nor holds a position on the matter addressed through the PDP, nor do the members represent a view or position of ccTLDs in general.” (see: ccNSO Council Resolution 225-01). In light of this decision, the ccNSO appointees will contribute in their individual capacities, sharing their respective views, knowledge, and experience with the intention of constructively enriching the process.

On behalf of the ccNSO Council,
Alejandra Reynoso, Chair
