

Dear ccNSO Secretariat

We are writing to express our support for Everton T. Rodrigues' application for the ccNSO Appointed Liaison to the GNSO Council. Everton has been a dedicated employee of NIC.br since 2006 and currently serves also as technical consultant to the Brazilian Internet Steering Committee (CGI.br), where he provides insights and reports on ICANN's outcomes and activities.

Everton is an active participant in ccNSO groups on behalf of .br, including the Meetings Programme Committee (MPC), which he chairs, and the Internet Governance Liaison Committee (IGLC), both of which we are fully aware of. We have no doubt that Everton's extensive experience and knowledge in the field will make him a valuable asset in advancing the mission of the ccNSO.

We endorse his application, hoping to consider Everton for this important role.

Thank you for your consideration.

Sincerely,

Demi Getschko
