*Subject: *Re: Selection of GNSO liaison

Peter,

thank you for this email.

Namibian Network Information Center ("NA-NiC"), the ccTLD Manager for .NA herewith formally confirms that Luis Diego Espinoza is backed by NA-NiC as the GNSO liaison. So do I in my personal capacity.

I have in fact poposed to him to submit this application.

As you may recall he was elected to ccNSO Council but did not take up his seat due to his leaving NIC .CR, he is and has been an active member of the TechWg/TechDay and has kept himself familiar with the ccNSO ongoings on our behalf. He also has been consulting with us on DNS and DNSSEC related matters on a regular basis.

This why we feel that he is the ideal candiate for this position and of course because of his extensive experience and wide contacts.

I apologize for not submitting a formal letter beforhand, but I was unaware that this was required.

It is for this reason that Bart reads in copy as well so he can formally forward this email to all Councillors, or let me know if I have to generate a PDF. I myself can not post to the closed Council list.

Greetings, el

Hi Eberhard,

The ccNSO Council needs to appoint a new GNSO liaison. There are a number of candidates so each councilor will have to send in a list with scores per candidate.

One of the prerequisites for the validity of the candidacy is that the person submits "a letter of support of the employer or, if not

directly linked with a ccTLD, demonstrates the active backing of a ccTLD manager”.

One of the candidates, Luis Diego Espinoza, refers in his application letter to the following: “ For this application, I’m backed by NA-NiC for what you can contact Eberhard Lisse for advise or confirmation. “

There is however no sign of an e-mail message or formal support letter to back this up.

Can you confirm that NA-NiC or you actively support the candidacy of Luis Diego Espinoza?

I have put Joke in cc of this message so that she might inform the other ccNSO councilors of this issue.

Kind regards,

Peter
