ACTIVATE UASG
LIAISON

CREATE CCNSO UA
COMMITTEE

EXPLORE FURTHER
ACTIONS

Activate UASG liaison (completed)

The ccNSO has appointed a liaison to the Universal Acceptance Steering Group (UASG). This liaison will regularly inform the ccNSO through its Council what is happening in the UASG and vice-versa.

Create a ccNSO UA committee

In its activities, the Committee focuses on the following core elements, to benefit ccTLDs:

- Assist in organizing sessions on UA readiness and practices, e.g. at Tech Day or during ccNSO Members Meetings.
- Liaise with other relevant ICANN groups (e.g. UASG, GAC IDN WG, Board IDN/UA WG), and incorporate the role of the ccNSO appointed UASG liaison.
- Coordinate with interested ccTLDs to share IDN/UA readiness case studies and working models, to highlight and share knowledge on current practices in IDN support and UA readiness
- Provide a report repository on Email Address Internationalisation (EAI) adoption in ccTLD zones

Explore further actions

Once the committee was created and its activities are well-established, the next step would be to explore whether other proposed activities would add value to the community and – if so – how best to organise them.

Such an assessment should include a community consultation. To further explore the suggested actions the committee should at a minimum address whether the benefits of the proposed activities outweigh the efforts needed to implement and maintain such an activity and whether the ccNSO is the best positioned group to do so, taking into account the strategic framework of the ccNSO (Annex 1 in: <https://ccnso.icann.org/about/adopted-work-prioritisation-approach-07jul22-en.pdf>)

Future deliverables

- Repository
 - share IDN/UA readiness case studies and working models, to highlight and share knowledge on current practices in IDN support and UA readiness
 - Provide a report repository on Email Address Internationalisation (EAI) adoption in ccTLD zones
- Interaction with other groups
 - i. UASG
 - ii. GAC IDN WG
 - iii. Board IDN/UA WG
