

UASG work monthly report

November 2023

UASG Coordination WG Progress on October

Agenda Item A: UASG Five-Year Strategic Plan FY2025-2029.

The UASG moved from focus on UA awareness towards UA Adoption, quantified the progress target for the first time, and mapped out a roadmap. Team actions and attention will be more focused on government department needs and procurement, support from large technology companies, and support from the DNS industry and service providers.

Agenda Item B: 2024 UA Day

Focus on the 2024 UA Day activities, including the roadmap, which defines the milestone such as proposal acceptance and deadline, promote UA Day at ICANN78 meetings, and introduce the situation and positive results of 2023 UA Day. The details of the Call for Proposals for the UA Day were further discussed in the recent WG meeting, and the UASG leadership team received a request from CIS-EE regarding host UA Global Day 2024 in Belgrade Serbia. The group then discussed the venue selection for the Global Day, and UASG Vice President Nitin further shared what the matters organizers need attention when the first UA Global Day was held in India. This portion of the meeting was inconclusive at this time and will continue to be discussed in subsequent meetings.

Agenda Item C: UASG in ICANN78.

Topics includes UASG Five-Year Strategic Plan meeting, UA Day meeting, participation in ICANN New leaders, ALAC. In the meeting, UASG President Anil, Vice President Nitin and Nabil joined hands to explain the UA goals and direction of efforts, the current achievements of UASG. UASG Five-Year Strategic and UA day plan. They had a lively exchange with guests and online audience.

In the meantime, UASG leaders communicated with ICANN executives, focusing on the optimization of organizational structure, leadership responsibility system and the definition of member voting rights, and hoped to move forward with implementation of SOI in UASG as soon as possible.
