

1. What? Session description

At ICANN80, the ccNSO Universal Acceptance Committee (UAC) will facilitate a session, focusing on:

- the UAC work plan,
- introducing and promoting the use of the UAC Library and e-mail list,
- raise awareness on UA Day for ccTLDs
- Share the results of surveys to date on UA readiness for ccTLDs and the possible need for a dedicated survey.

Universal acceptance refers to the concept of treating all domain names equally and ensuring that they are recognized, accepted, and functional across all internet applications, systems, and devices. The purpose of the ccNSO Universal Acceptance Committee (UAC) is to provide the ccTLD community a platform to interact and share information at a global level and with other groups under the ICANN umbrella on topics related to UA and acceptance of IDNs.

2. Run Sheets: Session Flow

NOTE: all slots include time for questions and answers and interaction with the audience. If your slot has 10 min. duration, please speak for max. 8 minutes, to allow for sufficient time for Questions and Answers.

Wednesday, 12 June 2024 (07:00-08:15 UTC | 09:00-10:15 local)

Names listed below are tentative, unless explicitly confirmed
