

Identify blockers and risks UA readiness

Workshop agenda

- Current status of UA implementation
- Identify blockers and risks
- Group discussion
- Q&A
- Summary and next stepsItem

Current status of UA Implementation

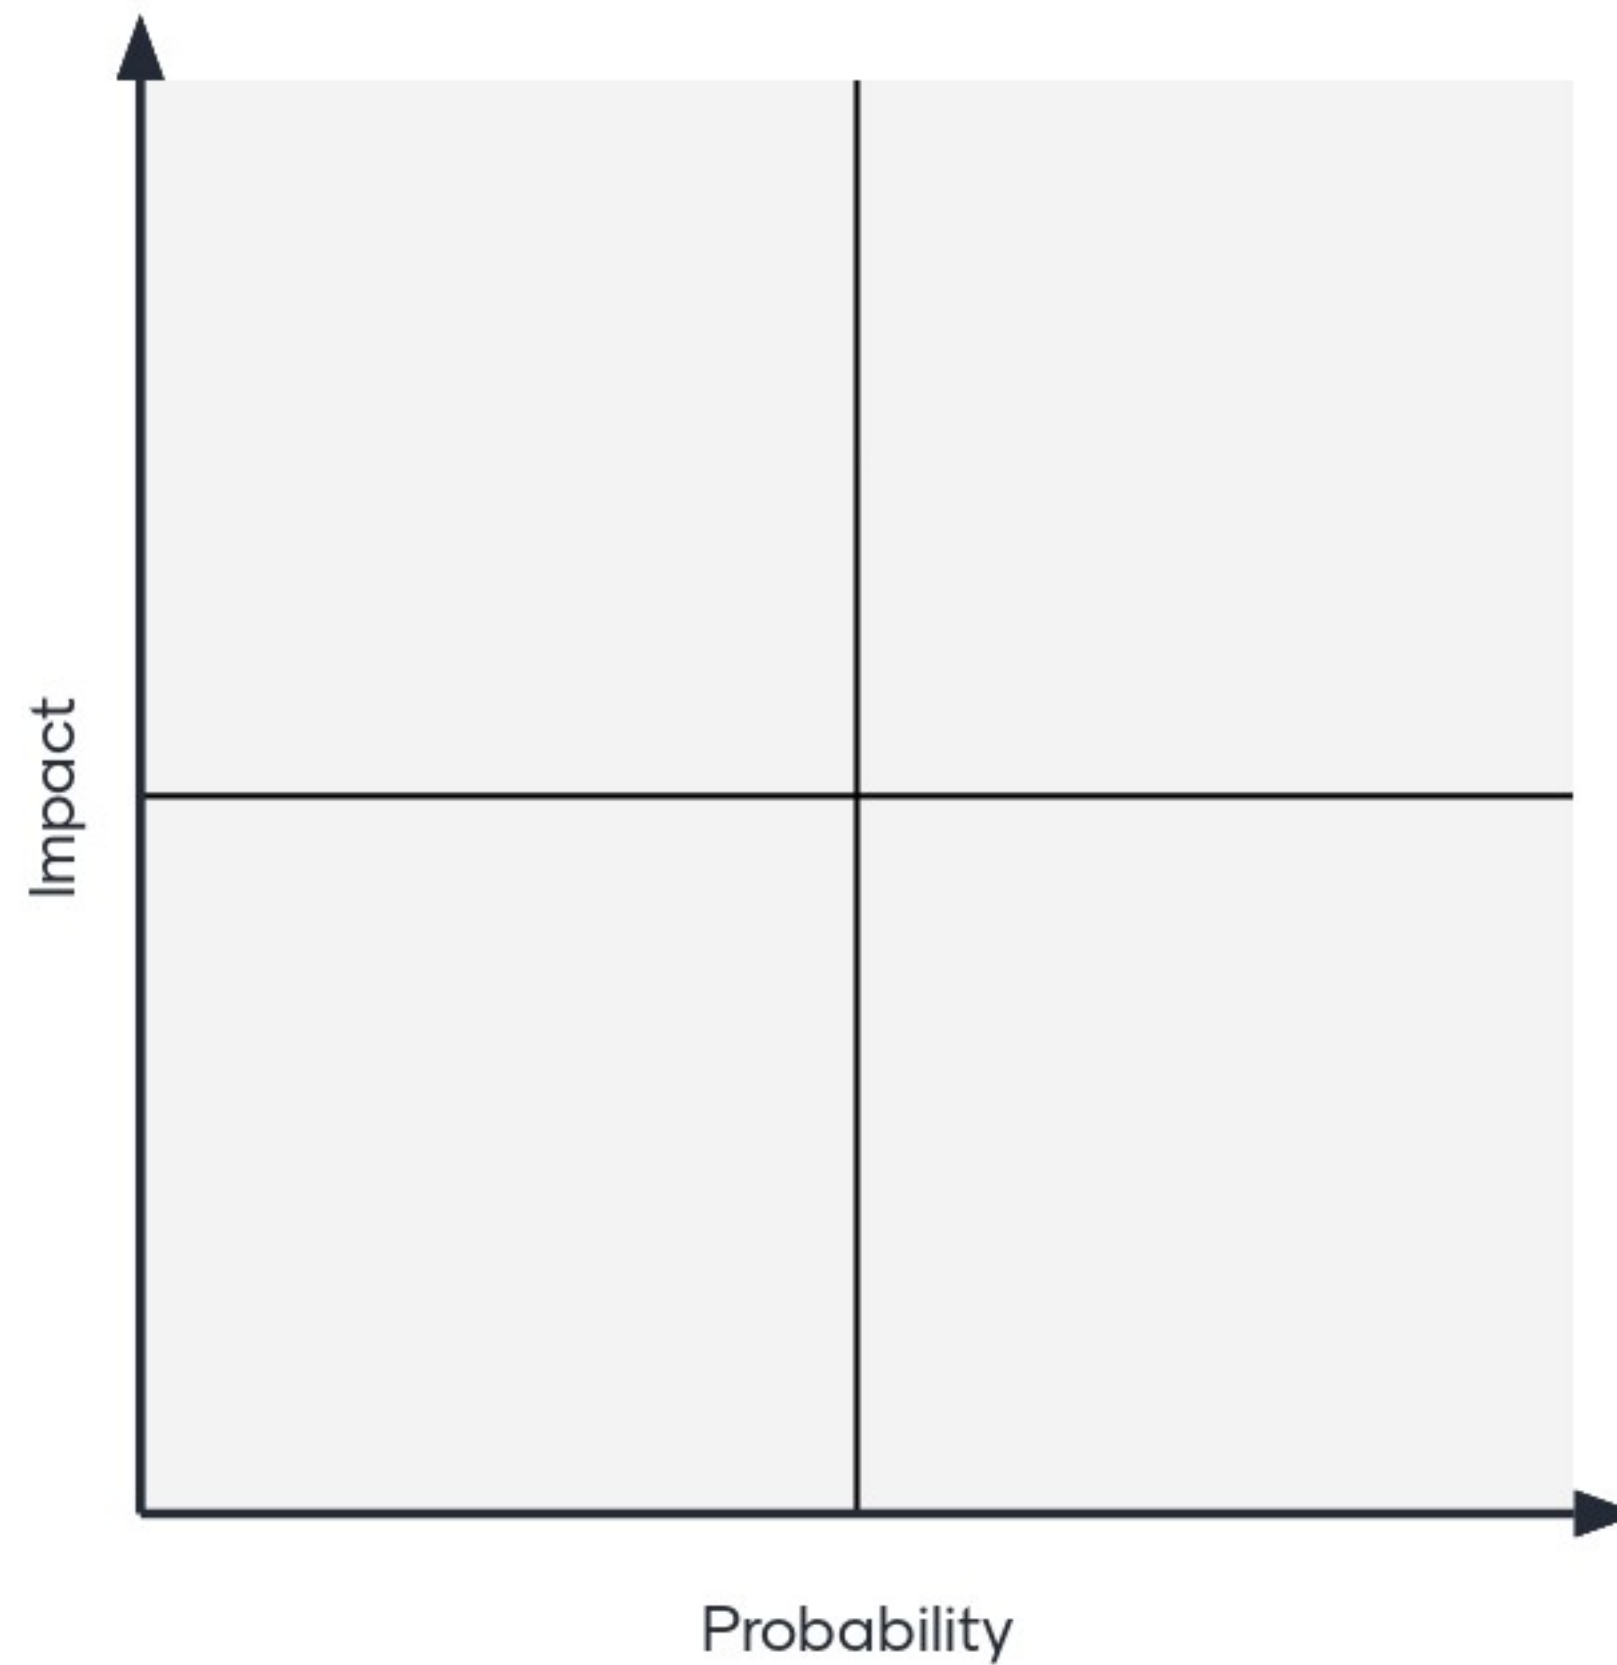

- Insert information here
- Insert information here
- Insert information here

What is currently blocking our progress?

What are some risks that you see at the moment?

Rate the current risks:

- 1 Lack of urgency
- 2 Lack of resources
- 3 compliance
- 4 Dependencies

Group discussion: How can we address the blockers and risks?

Any remaining questions?

0 questions

0 upvotes

Confidence vote

We can prevent most risks

We have all the necessary resources

UA readiness wil be acihieved in 5 years

Strongly disagree

Strongly agree
