

## **Candidate Statement for GNSO Council Chair**

**Candidate:** Jonathan Robinson

**Date:** 28 September 2012

I am pleased to accept the nomination and to sincerely thank Jeff Neuman, Registries Stakeholder Group Councillor and Vice Chair of the GNSO Council for making it.

### **Personal Qualifications**

I am an experienced company director, manager and specialist in a variety of areas which are directly relevant to the complex blend of issues that the GNSO Council has to navigate. As well as specialist domain name industry experience, I have broader international and multi-stakeholder environment experience gained in the academic, not-for-profit and public purpose areas. I have lived and worked for extended periods of time in both the developed and developing world. My style is that I value careful consideration, balanced judgement and ultimately, productive output.

My recent professional experience has included:

- Over 10 years as main board director of public, quoted company, Group NBT plc
- Over 10 years as non-executive director of Afilias Limited (.info, mobi & .pro)
- 3 x 2 years as a member elected non-executive director, Nominet (UK) Ltd (.uk)

Prior to the development of ICANN, I was involved in work which involved active participation in a series of international meetings and included a term as deputy chairman on the board of the Internet Council of Registrars (CORE) back in 1997. Since ICANN's inception, I have attended a minimum of one ICANN meeting per year and every meeting since being elected to the GNSO Council in December 2010.

I hold a BSc (Physics) and a PhD (Engineering) degree from the University of CapeTown, South Africa. I previously undertook research at the University of Cambridge, Cambridge, UK, Imperial College, London, UK and the Lawrence Berkeley Laboratories, University of California, USA.

### **Role of the GNSO Council**

It is evident to all that ICANN is at an absolutely critical point in its development. The organisation has recently embarked on the execution phase of the most ambitious project and role in its history; and it is therefore now facing unprecedented operational and broader challenges, including to the ICANN model itself. ICANN's role and work is the focal point of international attention and scrutiny like never before, including from governments and a significant array of other interests.

It is within this broader context that we, the GNSO Council, need to re-establish, re-assert and re-focus on our essential role and function. The core role of the GNSO Council is to manage policy development in generic top level domain names and we need to be, and be seen to be, functional, effective and productive in undertaking that role. In doing this well, we will play our proper part in reinforcing, underpinning and adding value to the ICANN multi-stakeholder model.

## **Role of the GNSO Council Chair**

The GNSO is one of three supporting organisations; however the GNSO Council is arguably the only place where the full diversity of the multi-stakeholder model comes together in full and in one, relatively small melting pot. Embracing diversity and ensuring effective output is a great challenge for the Council and therefore the councillors, the ICANN policy staff and the Council leadership, especially the chair. I relish that challenge and feel that a fair, consensual approach with a focus on output is required to meet it.

In addition to managing the diversity of input, the sheer volume of work that the Council needs to deal with is an on-going challenge. Inroads have been made to dealing with the workload through practical enhancements in the way we work, such as maintaining schedules of on-going projects and the recent introduction of a consent agenda. I expect that further improvements to the functioning of the Council as well as to prioritising and managing of workload should be possible and will seek to achieve this.

The Council attracts significant attention because of its high profile and important role. The chair must be cognisant of this and I believe that a good chair needs to be effective at engaging with the broader community, in order to ensure that the role and work of the Council is properly understood and appreciated. This is clearly a delicate position because it is not about representing specific positions that the Council may take or have taken but more about ensuring that the role, function and scope of the GNSO Council is properly understood and effectively represented.

I currently serve on the Council as a representative of the Registries Stakeholder Group (RySG). My vote in the Council is directed by the RySG and, should I be elected as chair, it will continue to be so. The role of the chair is clearly distinct from and fundamentally different to the advocacy oriented role of a councillor representing a particular interest or stakeholder group within the Council. I understand the principle and practice of this and therefore, the change in role and behaviour that becoming a chair requires.

The fundamental job of the GNSO Council Chair is to ensure that the Council is and remains as productive and effective as possible. This can be achieved by recognising the diversity of views that necessarily exist within the Council and then facilitating a fair balance of these views whilst remaining focussed on the necessary output.

## **Summary**

It is an honour to be nominated and, should I be elected, it will be a tremendous privilege to serve a term as GNSO Council Chair. The job is no doubt a challenging one, perhaps even more so than ever before. I trust that this statement gives confidence to fellow councillors, and the groups that they represent on the Council, that I have the personal qualities, maturity and professional experience to do the job to the high standard it merits.

However, if elected, I will not expect to do the job alone but to work with the support of councillors, Vice Chairs and ICANN staff. I will work collaboratively and, whenever appropriate or necessary, rely on expertise other than my own.

I believe we should place significant value on the effective functioning of a GNSO Council where councillors can feel free to raise issues and vigorously argue the positions of the groups and the stakeholders that they represent. However, ultimately we should measure our success by the productive and effective output of the Council. As a councillor and prospective Chair, I would like to see us all to be part of a GNSO Council that is respected and highly valued for our role and contribution, both by our immediate stakeholders as well as the broader ICANN and global internet communities.
