

Enhancing ICANN Accountability

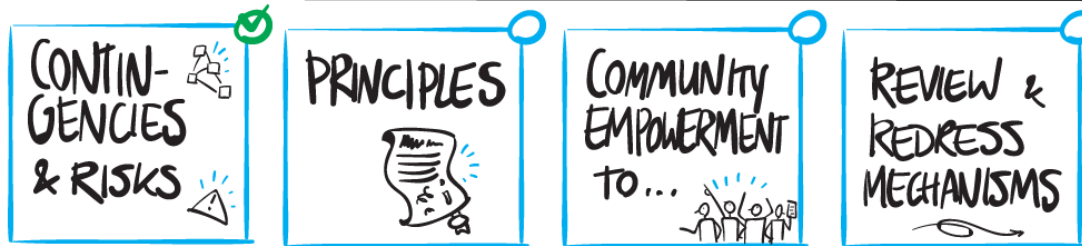

Istanbul March, 2015

Singapore

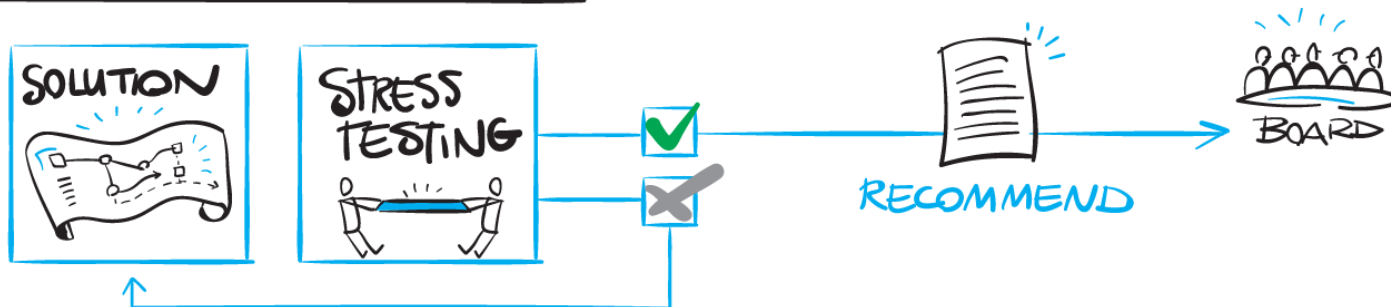

① ESTABLISH STATUS QUO

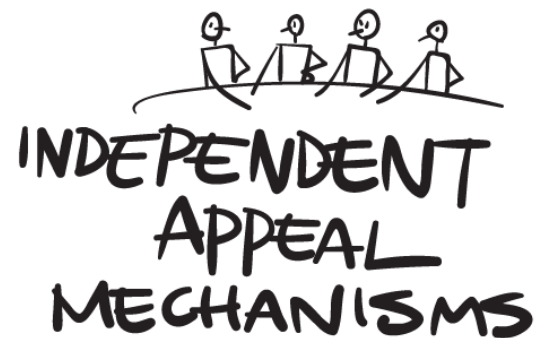

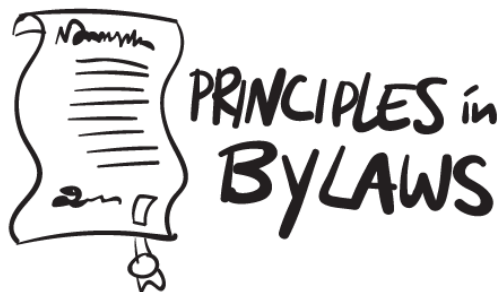

② DEFINE REQUIREMENTS

③ ENVISION SOLUTION

Key components

- Board Removal
- Ability to veto or block bylaw changes
- Ability to review and return budget for rectification
- Power to approve changes to fundamental bylaws

Mechanisms*

- Current mechanisms (ATRT, IRP, Ombudsman)
- IRP (revamped)
- Standing Community Committee
- Modifying corporate structure
- Community Veto

*Currently work in progress and under consideration

ACCOUNTABILITY MECHANISM.*

- Power(s) that it would enable to exercise
- Standing to invoke
- Standard of review
- Composition of decision-making body
- Decision making process
- Accessibility
- Potential means and time to implement

Next steps

- Work with legal advisors
- Continue to refine mechanisms
- Continue to stress test proposals under consideration
- Issue a first document for public comment before BA
