Q5

Any additional comments/observations?

Both are qualified candidates, but the differentiator, for me, is that Michael was a member of member of the Latin RZ-LGR Generation Panel. This niche technical knowledge I believe will be critical to the success of the PDP.

Q2

Mark Datysgeld

No,

Evaluator's comments/observations about Mark Datysgeld's experience, skills, and attributes:

While Mark does have a good will to carry out the work, he sometimes struggles to accept feedback or admit when proven wrong. Holds strong opinions that are not always accurate.

Q3

Michael Bauland

Yes,

Evaluator's comments/observations about Michael Bauland's experience, skills, and attributes:

Michael is a preferred candidate for the role as he has the necessary and deeper background. Michael is in a better position to do this task, listen to the members of the WG and understand any challenges as his day job involves work with implementation of IDNs in gTLD registries. Secondly he participated in the work of the IDN PDP as well as RZ-LGR which is being reviewed.

Q3

Michael Bauland

Yes,

Evaluator's comments/observations about Michael Bauland's experience, skills, and attributes: Michael has the edge for this position given the strict delineation of scope and his involvement in the Latin LGR development. Additionally, he was actively involved in the IDN EPDP process working "across the aisle" to bring those with opposing views together to compromise.. He also appears to have an extensive technical background that would be beneficial for this PDP.
