# Questions for IRT Consideration

---

1. For contracted parties currently responding to urgent requests, what has been the average turnaround time and what factors influence the timeframe?
2. For LEA submitting Urgent Requests, what problems or gaps exist in the current approach?
3. What additional safeguards are needed to confidently commit to respond to an Urgent Request from an authenticated entity within 24 hours?
4. Assuming safeguards and confidentiality are in place, are there any other obstacles that contracted parties might face in consistently providing a response to an urgent request within 24 hours? What practical solutions can be proposed to address these obstacles?
