

# ICANN | NEXT GEN

## What's in it for you?

### Shape Your Future and the Internet's

Contribute to global Internet policies that keep the Internet secure, stable, and interoperable while helping your community and building a strong professional network to launch your career.

### Explore ICANN

Learn about ICANN's unique role in the Internet's critical functions, and its multistakeholder governance model where businesses, civil society, the technical community, academics, end users, and governments participate.

### Expert Coaching & Travel Support

ICANN fully funds accepted NextGen@ICANN participants' travel to the meeting location, lodging, and provides a stipend. ICANN staff and community members offer guidance and know-how to join the ICANN community.

**Are you between 18 and 30, living and studying in Canada or the US\*? If so, this is your chance to dive into the world of Internet governance!**

At ICANN, we're committed to nurturing future leaders who will shape global Internet policy. We do this by preparing the next generation to participate in Internet governance and demystifying an often-overlooked part of the Internet ecosystem.

## Apply now!

Don't miss your chance to be a part of this transformative journey!
