The UASG Workshop is a full-day session that allows participants to work collaboratively to identify the situation and work to develop solutions to be deployed through the end of next year.

The format will generally be a roundtable discussion, identifying experiences and actions to move forward. Interspersed with these discussions will be a few short presentations.

Topics will include: Around the World – the state of UA in various states; UA & Sustainability Goals; Content and Collaboration for outreach; EAI; Registrars, Registries and the Internet Industry – Getting to UA Ready; How to recognise a domain name – People and Computers.
