  - c. John's planning on using the slide deck at a conference in Europe early in September and the M3WAAG meeting in New York in October
4. Do we run an Online Tutorial? There was no interest.
5. Update on EAI & M3WAAG
  - a. John & Barrie gave a presentation in Munich.
  - b. John running a tutorial in New York
  - c. Don's keen to ensure that M3WAAG participants are aware of EAI (many large email facilitators) and that they are aware of all new TLDs.
6. Review of EAI Evaluation Document
  - a. Need to have a definition of 'Fuzzy Matching' if we're going to advocate for such. John to provide additional information
  - b. We will NOT test for Unicode passwords
  - c. We will test for linkification, but it will result in an advisory notice, not a failure
  - d. We will test for the Open Dot, but it will result in an advisory notice, not a failure
  - e. We should invite the software owner to participate, or at least be aware of our testing – but their lack of participation should not stop our testing.
  - f. We need to be explicit about which version we're testing – and where no version number exists the time and location that the testing occurs.
7. The UASG should promote engineers participation in IETF i18n activities
  - a. John to provide relevant mailing lists
  - b. This is to be included in our standard slide decks.
  - c. UA Ambassadors to be briefed.
  - d. Include this in the IAMAI workshops
8. Barcelona Agenda
  - a. Don asked participants to consider agenda items for Barcelona meeting
9. AoB
  - a. Yao asked for an invitation letter to the UA Coordination meeting in India and the creation of a website with the program.
  - b. Don & Ajay to finalize soon.
