- Chair's Report/Summary and Closing delivered by Ms. Paula Ingabire, Minister of Information and Communications Technology and Innovation, Rwanda & Chair of the HLG

18:30 – 20:00: **Reception for High-Level Officials**

Operating Considerations:

Requesting Meeting Speaking Opportunities -

Attending delegations are invited to seek specific comment/discussion slots in the topic areas of interest/objectives outlined for each session.

Delegations are kindly requested to plan for one three (3) minute statements for any session in which they have an interest. Efforts will be made to accommodate all requests.

Due to overall meeting time limits, if a delegation has an interest in requesting sessions time slots for more than one session, the delegation is asked to indicate their topic order of preference - as preference will be given to delegations who have not yet spoken during the program.

Requests for speaking slots should be directed to gac-staff@icann.org (cc maeva.devoto@icann.org ; laurent.ferrali@icann.org, charles.gahungu@rura.rw)

(Email addresses to be confirmed by host government and speaking requests will be shared between host government and ICANN GAC Support staff only.)

Impact of Speaking Requests -

Meeting planners will be flexible in managing the timing of each session to accommodate the interest level of attendees. Based on the current timing of the HLGGM agenda, each of the three plenary sessions will generally be able to accommodate 20 speaking slots – allowing for a brief 9-minute introduction to each topic and transition time between speakers. Available slots may be further reduced if additional content or “dynamic” discussion is anticipated. Session timing for the meeting day may be adjusted closer to the actual meeting date to reflect the overall interest in each topic – as indicated by speaking slot requests.
